

**DHHS PUBLIC HEALTH CLINIC**  
**IMMUNIZATION PRICE LIST**  
(707) 268-2108

Insured adults and children will no longer be eligible to receive low-cost, federally subsidized vaccinations. This holds true even if the insurance includes a high deductible or co-pay. The vaccinations can be purchased, however.

The fees below are subject to change; please call if you need to confirm a price, or if you have questions about what vaccines you need, or about your vaccine cost.

A child without privately purchased insurance will still be eligible to receive low-cost, federally subsidized vaccinations if he or she is:

- uninsured (does not have private health insurance); or is
- American Indian or Alaskan Native.

<u><b>CHILD</b></u>
