I request an immunization exemption for the following reason: .....

.....

Student's signature .....  I have read the notice below Date .....

**IMPORTANT NOTICE!** If a measles or mumps outbreak should occur on campus, students who lack verification of MMR immunity (including those who have waived vaccination) may be asked to remain off campus until the outbreak is declared over by campus health officials. This could take up to several weeks. Please note that measles have been reported in California recently.

10/18

***Measles and Rubella (applies to all students born after January 1, 1957)***

The California State University requires that all new and readmitted students born after January 1, 1957 provide proof of full immunity to measles and rubella. Full immunization means two doses of measles/rubella vaccine received after one year of age. Usually these immunizations are combined into one injection, Measles/Mumps/Rubella or MR-Measles/Rubella. HSU can provide the immunization for a fee.

***Hepatitis B (applies to students who are 18 or younger on 1<sup>st</sup> day of classes)***

All students who are 18 years of age younger on the first day of classes must be immunized against Hepatitis B. The Hepatitis B vaccine is given in three doses over a period of 4-6 months.

***Using the Health Center's immunization verification form, or something similar, you can comply with this requirement in one or more of the following ways. If you are not using the form, please include your HSU Student ID number on any documents you send.***

- (1) *Submit immunization record:* Send a photocopy of your childhood immunization record or ask your physician/clinic to complete and sign or stamp the record on the reverse side of this sheet (box 1).
- (2) *Obtain physician's signature* if you have been advised not to receive immunizations for medical reasons (box 2).
- (3) *Submit a photocopy of laboratory testing* (blood titer) as evidence of immunity (box 3).
- (4) *Request a waiver\*:* State law permits exemption from immunization for those who object to immunizations on religious or personal grounds. Check the appropriate box on the reverse side of this form, state the basis of your request, and sign.

**IMPORTANT NOTICE!** If a measles or mumps outbreak should occur on campus, students who lack verification of MMR immunity (including those who have waived vaccination) may be asked to remain off campus until the outbreak is declared over by campus health officials. This could take up to several weeks. *Please note that measles have been reported in California recently.*

10/18

If you cannot locate records, or need to be immunized, the Health Center offers immunizations daily. Please be aware that you must comply with the immunization requirements before you will be permitted to register for classes after the first semester.

**You must complete the immunization form and upload a copy of your immunizations through the Secure health Portal. For more information:
